

This line of pasta dishes was created having handmade products in mind. Our fresh pasta boasts a golden yellow pastry due to the high presence of eggs, 8 per kilogram of durum wheat semolina. Ingredients for stuffing were selected from among the excellence of Italian DOPs.

Each pasta-shape in our selection is expertly crafted. When pasta is **home-made**, no two pieces look exactly alike. When seeing one of our pasta dishes, this difference is clearly visible. A difference that changes your perception of the dining experience. These products are unique. Our fresh pasta masterpieces are dedicated to those who recognize and relish the authentic flavor of the great Italian tradition. We want to offer a product that is simply superlative !

Italy rightfully boasts many virtuosos of the art of puff pastry, particularly in the Emilia Romagna region, home to lasagnas. We combine this knowledge and new technologies to honour traditional artisan craft, leaving nothing to chance.

Now, we are proud to present our pasta-line.

Even local fresh pasta stores might not have some of the traditional types of pasta in our selection.

The size of our stuffed pasta is large, for a particularly rich taste.

We have also prepared innovative ingredients combinations to recreate the typical flavors you would find in a trip across the different regions of Italy.
